

*A New World of Learning...*

## ORANGE ANGLICAN GRAMMAR SCHOOL

**NEWSLETTER**  
**5 April 2019**

### *From the Headmaster....*

As our Stage 3 Campers arrive back after a week of fun at Burrendong Sport and Recreation Centre, it reminds us that next week will see our busiest Secondary camp week of the year. I am confident that our Students and Teachers will have a wonderful week facing new challenges, developing relationships and building resilience. I am grateful for our Staff who take the time away from their homes and families to support our Students on these wonderful experiences.

### *Staff changes*

I would like to inform you that Mr Ben Doyle will be finishing up at OAGS this term. Mr Doyle has taken an opportunity to move out of the Sport/PDHPE area, accepting a position teaching Mathematics full time. Thank you to Mr Doyle for all of his hard work and dedication to the students of OAGS. Whilst Mr Doyle will be missed we are very confident that Ms Lauren Della Ca and Mrs Amanda Jewell, with the assistance of Miss Abby Tilburg, will continue on supporting the wonderful athletes within our school community.

### *Easter*

It was fantastic to look out across the Primary playground and see our community having a wonderful celebration last Friday. As the saying goes 'many hands make light work', there are some members of our community that I am indebted to:

- Thank you to Mr and Mrs Andrew and Angel Chua from Bakers Delight, parents of Dhennise, who fulfilled our order of 300 delicious hot cross buns at short notice.
- Thank you to our amazing P&F. From sausages to Biryani, Easter Hampers and the wonderfully stocked Second Hand Clothing store, to set up, clean up and pack up. We are eternally grateful for all of the volunteers who gave their time to assist.
- Thank you to our 'unofficial' 'Master of Ceremonies', Head of Wellbeing Mr Keith Macleay. You always have the 'bigger picture' in mind and your creativity and enthusiasm is like no other!

- Thank you to my dedicated Teaching, Support, Admin and Grounds staff. Events like the Easter Fair don't happen without you and your commitment to making every day wonderful for our students and community.

**Rev Louis Stringer**  
**Headmaster**

## From the Leader of Wellness

Greetings everyone,

The Australian Student Wellbeing Framework supports Australian schools to provide each and every student with the strongest foundation possible for them to reach their aspirations in learning and in life. The Framework is based on evidence that demonstrates the strong association between safety, wellbeing and learning.

The wellbeing of children and young people is enhanced and their learning outcomes optimised when they feel connected to others and experience safe and trusting relationships. Students who feel connected, safe and secure are more likely to be active participants in their learning and to achieve better physical, emotional, social and educational outcomes. Parents, educators and the wider school community who feel valued and supported are more likely to engage positively with their school and build stronger connections within the school community. Enhancing the wellbeing of students and their educators delivers overall long-term social, health and economic benefits to the Australian community.

### The Framework

#### Elements

The five elements of leadership, inclusion, student voice, partnerships and support provide the foundation for the whole school community to promote student wellbeing, safety and learning outcomes.

Australian Student Wellbeing Framework

## PARTNERING WITH OAGS

Please join us on Wednesday April 10 from 6.00pm - 8.00pm to be part of our next wellness event. Effective family and community partnerships with school to support student learning, safety and wellbeing is one of the five elements in the student wellbeing framework. Proactively building collaborative relationships with families and communities to create a shared understanding of how to support student learning, and developing strategies to sustain culturally respectful partnerships with families and communities that are welcoming and inclusive is central to my role as the Leader of Wellbeing at OAGS. Our collective vision can only be realised through the donation of time and expertise of our long term and committed volunteers and it is hoped that by sharing the rich and varied avenues of involvement with our new and long term OAGS families, we can foster connectedness and feelings of belonging that are essential for wellbeing at school. These relationships are characterised by constructive interactions that provide enthusiastic and genuine opportunities to share our experiences. They are important because they help us to build a socially inclusive school environment, that in turn nurtures other positive, caring and respectful relationships.

Whether it be parent readers in classrooms, coaching a sporting team, assisting on excursions, participating in working bees or simply turning a sausage on the BBQ at a P&F fundraiser, if the parents and the broader school community are actively participating in the school and helping out then our students will also develop positive connections with parents, which in turn, contributes to learning in environments outside of the classroom.

The evening will be interactive, fun, thought provoking and encourage change in how we go about involving our community in school events. I'd also like everyone to go away with something tangible (as a team) on how to move forward.

There will also be a creche for children, so that parent who would like to come but might not because of having to find or pay for a babysitter, will have their children looked after while they attend the Wellness Session.

I look forward to seeing you there!

**Mr Keith Macleay**  
**Head of Wellbeing**

## From the Sport Department

The first season of OAGS Open Girls Basketball team was a great success with the team participating in the Orange Basketball Girls High School Division 1 competition. For most of the girls this was their first introduction to playing basketball, with only Hailey and Izzy having played before. So armed only with some Netball experience the rest of the girls quickly learnt that there is a vast difference between netball and basketball. In particular getting used to not having to remain 3 feet from the ball and aggressive defence where you are allowed to take the ball from the offence player.

Our first couple of games in the season we came up against some very strong teams but as the season progressed the girls soon developed their knowledge and understanding of the rules and how to achieve a strong defence. The team had some great wins throughout the season and this put the team in the Division 1 competition where the other teams were very strong with the teams consisting of many Orange Basketball Representative players.

The girls were able to be competitive and made it all the way to the Semi Finals, finishing the season in a commendable 4th place in the top division. I am very proud of the girls as, each week they improved, and were soon developing an interest in playing basketball. I had many comments from the other team coaches saying how the girls had developed throughout the season and were becoming a very good team.

I am sure that if the girls continue to play basketball, their knowledge and skills will improve so at the next competition we have a greater chance at winning when finals come around. It has been a great pleasure to be the team's coach and to watch each week as the girls improved and started to grow a keen interest in a sport that I love as it is a great game for everyone to play.

**Lee Spirit-Jones**  
**OAGS Girls Basketball Coach**

### ***Senior Boys Basketball – Playing for all the Marbles***

It has been a busy fortnight for the Senior Boys Basketball Team as they fought through the elimination bracket all the way to the Grand Final. In the Preliminary Final, our team dropped the hammer offensively in taking themselves to a big lead. Kinross, however, came storming back to pull within three points in the closing minutes. Due to some strategic clock management under the leadership and ball-handling of Jock, Ryan and Tim, we successfully played "hold ball" for the last three minutes of the game to deny Kinross the opportunity to get back into the game. Our opponents coach also complimented our boys on improving drastically in this second-half of the season, which is a testament to their growth and determination to work on their games collectively and individually.

In the Grand Final, against the "Thunder", the number one seed whom had blown us off the court in our last meeting, we came out all guns blazing. We jumped out to an early lead, which we took into halftime. Our opponent was unable to initiate their offense throughout the match due to our defensive scheme, a box and one in which we hounded their ball handlers throughout the match. A standout on both ends of the floor and man of the match was Harry Buckland, whose defensive tenacity and timely shot-making kept us in the game. Ultimately, we fell 22-18, however, I could not have been prouder of our team. They fought well throughout and I was impressed by their maturity in sticking together during a game which digressed as a result of a range of factors that

were out of their control.

The following quote from Super Bowl winning quarterback, Nick Foles encapsulates both winning and losing and the way we can choose look at the world in today's society. His example teaches us lessons about growth and that winning is not everything and it is important to embrace the journey;

*"I think the big thing is don't be afraid to fail, I think in our society today, Instagram, Twitter, it's a highlight reel. It's all the good things. And then when you look at it, when you think like, wow, when you have a rough day, 'My life's not as good as that,' (you think) you're failing. Failure is a part of life. It's a part of building character and growing. Without failure, who would you be? I wouldn't be up here if I hadn't fallen thousands of times. Made mistakes. We all are human, we all have weaknesses, and I think throughout this, (it's been important) to be able to share that and be transparent. I know when I listen to people speak and they share their weaknesses, I'm listening. Because (it) resonates. So I'm not perfect. I'm not Superman. I might be in the NFL, I might have just won a Super Bowl, but, hey, we still have daily struggles, I still have daily struggles. And that's where my faith comes in, that's where my family comes in. I think when you look at a struggle in your life, just know that's just an opportunity for your character to grow. And that's just been the message. Simple. If something's going on in your life and you're struggling? Embrace it. Because you're growing."*

In closing, the players on this team have all grown individually and as a group and I could not be more proud of who they have become both on and off the court. There is no doubt in my mind that they will take this experience and be the better for it.

**Mr Luke Simkins**  
**Basketball Coach**

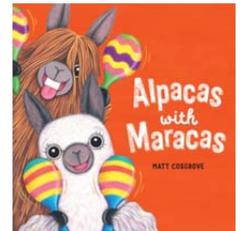

## Library@OAGS

### Easter Book Fair:

Thank you to all of the parents and families who supported the Easter Book Fair. It was a very successful and a fun day. The commission that the school earns from Scholastic Book Fairs is a very generous 30%, which is used to purchase resources for the classrooms and Library. There will be another Book Fair during Book Week in August.

### NSS2019

The National Simultaneous Storytime is an annual event held every year to celebrate children's literature and reading. The book chosen for this year is "Alpacas with Maracas" by Matt Cosgrove. Ms Taylor will be working with classes to produce a reading and performance, which will be held on Wednesday the 22nd of May.

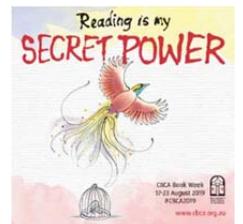

### Book Club

Thank you to parents and families who support Book Club at OAGS. All orders generate points for the school which are spent on resources for classrooms and learning and teaching programs. Orders for Issue number 2 should have been handed out to students by the time you are reading this.

### Book Week 2019

The Short List has been announced which means it is time to start thinking about the Children's Book Council of Australia's Book Week! OAGS will celebrate this week in August with a Book Fair and a special Book Week Assembly. The theme this year is "Reading is my Secret Power". What secret power would you want to have? Invisibility? Super strength? The ability to read people's minds?

### PRC

Ms Taylor has received a small number of student reading records already and looks forward to many more to come. Well done to those super keen readers, and keep up the great reading everybody!

### Ms Taylor

Teacher-Librarian

---

## 252 Army Cadet Unit – ORANGE

The Army Cadet Unit has had a great beginning with over 50 attending each Monday. Our first Bivouac was held at Holsworthy Army Base last weekend where we left the rain and cold behind in Orange and had sunny days. A delayed departure was due to some last minute attendees so we had to source another vehicle (not easy to do at 7am on a Saturday morning) rather than disappoint 3 students. On arrival we went straight into shooting at the WTSS (Weapons Training Simulation System) where some cadets had some very impressive scores. Following that we visited the Engineer Corps Museum.

We then moved to our campsite shared with other cadets from units based at Wollongong, Campbelltown and Mittagong. Cooking ration packs in the wind proved a challenge however morale was high and most achieved some sort of hot meal. After some night lessons, everybody was thankful to zip up the tents and go to sleep. The 6am early morning roll was well done with everyone up and dressed 10 minutes after being woken up! Then the challenge of cooking breakfast and packing up followed by a rotation of 3 lessons before moving to the \$23m swimming pool complex. Unfortunately we could only look at the obstacle course suspended above the pool as it was closed for repairs. Following a hot shower we looked at the

C130E Hercules aircraft (used for parachute drills training) and then had a meal in the Soldiers Mess - with many being amazed at the selection and quantity of food available.

The return trip was uneventful except for a longer stop than planned at Lithgow Maccas while a bus was refuelled which then led to another toilet stop at Bathurst. Thank you to the fathers who assisted find another vehicle on Saturday morning. Thanks also to Russell Player, Linda and Peter McGoldrick, Louis Stringer and Terry Nye for driving and providing the adult supervision for the weekend.

Mr Terry Nye

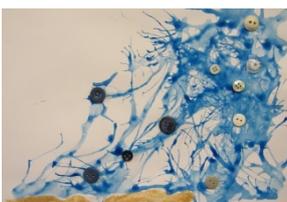

## Kindergarten

Kindergarten Koalas and Possums have been busy exploring all aspects of the curriculum this term, and this includes producing some amazing art works. Many of these creations require multiple processes and provide learning opportunities across the curriculum, such as talking and thinking about shapes, sizes and direction to deepen mathematical knowledge. Opportunities to strengthen language skills are also possible when students are able to reflect on their own artwork or provide others with feedback. Making connections across subjects provides experiences for students to deepen their understanding.

Well done to Kindergarten students and teachers.

Mrs Drury  
Early Learning Coordinator

## A Teacher on Tour

### *Übermenschen – The secret Jewish history behind comic books*

This past week, one of our very own, Mr Luke Simkins was invited to speak at the AIS NSW History Conference. Educators from both private and public sectors converged on the Kings School to hear presenters talk on topics from a range of historical perspectives, with an emphasis on big ideas and turning points in history. Mr Simkins reflects on the experience below:

**SHA:** So Mr Simkins, what did you present on?

**LSI:** I presented a seminar on "Graphic Art and Memory", about the secret Jewish history behind comic books. For example, most of the comics that we enjoy as both text and movie adaptations today have a great deal of history, allegory and metaphor behind them. From the very first Superman and Captain America comic strips in which they fought against Nazism to Batman, Spiderman and the X-Men, they all are dealing with Jewish people processing the transmission of trauma as a result of the Holocaust.

**SHA:** Tell us more!

**LSI:** Jerry Siegel, the creator of Superman stated; "What led me into creating Superman in the early thirties?...Hearing and reading of the oppression and slaughter of helpless, oppressed Jews in Nazi Germany ....seeing movies depicting the horrors of privation suffered by the downtrodden.... I had the great urge to help.... help the downtrodden masses, somehow. How could I help them when I could barely help myself? Superman was the answer." This clearly shows how Siegel dealt with the oppression of Nazism as well as providing a measure of escapism for himself and those in the Jewish community.

**SHA:** Those points are compelling. I remember reading a lot of lighthearted 'footrot flats' as a kid, however there's a real depth to what you're talking about here.

**LSI:** Absolutely. “‘To remember’ in Hebrew means something different to what it does in English. For us, the word ‘remember’ has to do with thinking about something, however, in Hebrew, it is about an action, it is about doing something”. As part of my presentation at the conference, I was eager to explain that as part of project-based learning, students can turn memory into action through adapting Holocaust survivor testimony into graphic novels. This also creates cross-curricular links for both students and teachers as the study of a graphic novel is now offered as part of the English syllabus from Years 7 – 10. For instance, while students study the Pulitzer Prize winning novel ‘Maus’ in English, they could concurrently be studying the context of the Holocaust in History. This then allows for students and teachers to come together and work on a collaborative project, such as creating graphic novels on survivor testimony. This is particularly useful in a K-12 school where through the creation of these novels, the Holocaust becomes accessible to Stage 3 students.

**SHA:** This is certainly a big push in educational thinking and literature at the moment isn't it. The ‘siloiing’ of faculties and subjects is being challenged by a push to see far greater cross-faculty learning experiences that more closely mimic real-world overlaps of history, english, science, mathematics etc. Thank you for taking the time to share with us Mr Simkins.

**LSI:** Anytime!

Overall, Mr Simkins participation in the AIS Conference was a resounding success, with many educators agreeing to take up this concept in their history classes and most admitting that they will never look at comic books the same again. Feedback from participants to the AIS Teaching and Learning Consultant, Carlo Tuttocoure was that this presentation was inspirational, resulting in an invitation being extended to Mr Simkins to present on a new topic at next year's' conference. This is a great achievement for OAGS, again showing why we are at the forefront of education in our approach to teaching and learning and I congratulate Mr Simkins on flying the flag for OAGS in the teaching community.

**Mr Scott Hazelton**  
Deputy Headmaster

### ***HSC Stress Less Presentation***

Last Thursday, Years 11 & 12 got the privilege of sitting down and learning skills to help us prepare for and “survive” the HSC. We got to hear from *Skillset* who came and discussed what they do and ways to get Apprenticeships & Traineeships. It was great knowing that their main focus is our future and assisting us with kickstarting our career. Mrs Daugherty talked to us about the differences between stress, anxiety and depression. We all gained a deeper understanding of what they were and ways to look out for warning signs. Mrs Daugherty got us to participate in a group activity based on the different year 11 & 12 stresses and coping methods. We got given sticky notes to write down what has been stressing us out and to stick it on the wall. Had we had an extra 10 minutes, most of the wall would have been covered because the HSC is stressful! We then wrote down ways that we individually cope with our stresses, ranging from things like exercise, music, food and having a good chat with someone you trust. We then got to hear from a 2018 HSC graduate named Jess Grant. Jess gave us a presentation on what she went through and provided us her top 10 tip list on how to overcome HSC stress. A tip that I thought was great was to pick a hobby and to stick with it. Jess's hobby was horse riding; she allowed time for herself to do it, which allowed her to recharge and take her mind off assessments and work. I really liked how we were able to relate to her, and how she made the HSC look a little less scary by putting lots of humour into her presentation and conversation.

Overall, I thought it was great to spend time figuring out ways to help us deal with the challenges we're about to or are already facing in our senior years of school. A big thank you to Mrs Daugherty, Skillset and Jess Grant for coming in and helping us think about our plan for tackling the HSC & life after high school.

**Jessica Bennett**  
Year 11 Student

## ***Year 11 RYDA Excursion***

On Wednesday the 20th of March, the Year 11 students participated in the RYDA Road Safety Program run by Rotary. The programme was a full day for the students as they experienced 6 presentations about preventing accidents, stopping distances of cars, the aftermath of a crash, preventions for crashes, the restrictions L and P platers have, how to lower distractions and the difficulties trucks have when driving. There were a variety of presenters for the programme which included police and police officers as well as members of Rotary and a serious car crash survivor. The main goal of the programme was to raise awareness about accidents and how we can impact and lower the number of driving accidents that occur in Australia. The students were heavily influenced by this programme and gave them a greater appreciation for how easily accidents can happen. Students now feel a greater sense of responsibility when driving and realise that they need to make wise decisions when behind the wheel. The Year 11 students would like to thank all the Rotary members, police and ambulance officers for running this programme and we extend this thank you to Mr Brown for taking the students.

**Anastasia Skinner**  
Year 11 student

## ***Blue Mountains - Govetts Leap - Geography Excursion***

On Friday, 15th March, students in Years 7 accompanied by Mr Simkins and Mrs Kerridge visited the Blue Mountains National Park at Blackheath. The students were guided by fantastic NPWS Discovery Rangers, Chris and Paul, through an informative presentation on local Aboriginal culture and people and a guided walk. During the walk students learnt about why the Blue Mountains National Park became a World Heritage area and learnt about weather skills. The guided walk led students to Govetts Leap, one of the most famous lookouts in Australia. The students viewed the magnificent valley and waterfall that drops 180m. A special thanks to Mr Hazelton who surprised students by dropping in on the day.

## ***Chess 2019***

The OAGS Chess Club commenced this term with social games on Thursday lunchtimes and the Secondary Chess Team played their first game in the Western Schools Secondary Chess Competition. Each Thursday students have been learning the rules of the game and have been provided with advice on chess strategies by Mr Cummins in preparation for the Inter school Chess Competition in Terms 2 and 3. The Secondary Chess Team is made up of Scott McGoldrick, Rhys Johnston, Tyler Jones, Clay Perkins and Archie Casey. The first round was played at Orange High School on Tuesday, 26th March 2019. They were fortunate to win overall and move onto the next round, where they will play Orange Christian School. We wish the team all the best.

# WELLNESS EVENING INVITATION

---

Please join us on the evening of Wednesday, April 10 to acknowledge and celebrate the important role that volunteering plays in building a strong OAGS community.

Whether it be parent/grandparent readers in classrooms, coaching a sporting team, assisting on excursions, participating in the secondhand uniform shop or simply turning a sausage on the BBQ at a P&F fundraiser, then this is the event for you!

Please come along. It will be interactive, fun, thought-provoking and an opportunity to see how easy it is to be involved in our community across a wide range of upcoming school events.

6.00pm – 8.00pm

RSVP by Monday April 8 for catering purposes to  
[keith.macleay@oags.nsw.edu.au](mailto:keith.macleay@oags.nsw.edu.au)

# P & F NEWS

*Our community is our P & F and we'd love to involve as many of you as possible in our activities. Whether you have; a minute, an hour, a day, EVERY little helps. Whether it be picking up a bag of ice on the school run, wrapping gifts, attending events or offering ideas & suggestions, NO contribution is too small, EVERY OUNCE HELPS!*

## **EASTER FAIR FRIDAY 29TH MARCH**

Thank you to everyone who volunteered in any way, shape or form to help us run the Easter Fair BBQ. We couldn't run these events without your help and we're truly grateful for every smidge we get!

A HUGE shout-out to our fabulous food-fairy FELICITY HARRIS for producing a simply sublime biryani (all in the lead-up to a wedding she was organising for Saturday), and organising the BBQ. We'd be lost without you!

To SUE LEE & ANNETTE BROWN, you are simply fabulous! The amount of time and effort you pour into our uniform shop is nothing short of immense. We are ever so grateful for

your dedication, energy and grace. We thank our lucky stars to have you & love you both to bits!

## **FORTHCOMING EVENTS**

**WELLNESS NIGHT 10TH APRIL 6PM:** We'd love to meet as many of you as possible, so we can tell you about our *exciting new initiatives* and share some of the many ways we are supporting our school community. We hope to see you there!

**MAY 10 & 24 W.A.S & HICES CROSS COUNTRY CARNIVALS** - we are lucky enough to be hosting the WAS & HICES Cross Country Carnivals again this year and the P & F have so generously been offered the chance to fundraise by running the BBQ (we'll leave the huffing & puffing to the children!). We'll be on the lookout for assistance leading up to the event and gobbling any offers of support to help-out on the day.

***JUNE & JULY - STAYED TUNED FOR SOME NEW AND EXCITING EVENTS!***

**OAGs Community Business Directory** - we are compiling a list of businesses owned and operated by our OAGS Community. If you own a business and are interested in being included in our Community Business Directory please drop us a line at [oagspandf@gmail.com](mailto:oagspandf@gmail.com)

Are P & F news and events passing you by? Join our mailing list at [oagspandf@gmail.com](mailto:oagspandf@gmail.com) to stay-in-the-know!

**NEXT MEETING**  
Monday 13<sup>th</sup> May 6:30pm  
ALL WELCOME (Venue TBC)

# Sculpture in an Orange Garden

You are invited to....

**Sculpture in an Orange Garden.**

(SOG) is a selling exhibition of sculpture displayed in a large established country garden in Orange NSW – held during the annual Orange F.O.O.D Week

Preview Cocktail Party – Friday 12 April 2019 Book online here

Friday 12th April 2019; 4.30 – 7pm. \$35 – bookings essential

OR book and pay at the Orange Regional Gallery

To be opened by Paul Selwood

Exhibition: Saturday & Sunday 13 & 14 April 2019

Exhibition open from 10am – 4.30pm each day

\$10 per adult, \$15 a couple, children free

No need to book

Children's sculpture workshops 1- 3pm each day

SOG LOCATION: Rosemont, 909 Cadia Road ORANGE – 10 minutes from central Orange. Google maps will get you there! And it will be signposted at key intersections.

# CODECAMP

Since 2013, more than 50,000 kids have had the most fun and excitement during their school holidays at Code Camp. Kids design, code, problem solve and become storytellers, as they move from consumers to creators with technology, and build their very own apps and games in 2-4 days!

### Spark

Ages 7 - 12

This is our most popular camp which over 25,000 kids have loved. Spark is where all children aged 7-12 should start their coding journey.

### 2D Game Makers

Ages 7 - 12

Take your coding skills to the next level by building a 2D adventure game using both drag & drop and JavaScript.

**Monday 15th April - Wednesday 17th April**

Bookings: <https://www.codecamp.com.au/venues/kinross-wolaroi-school>
